

OUT OF THE BOX™ FOUNDATION

FOLDING FOUNDATION
PATENTED DESIGN ALLOWS FOR EASE OF SHIPPING

Out of the Box™ Foundation Can Be Paired With Any FR 1633-Compliant Mattress

After extensive testing by accredited SGS Labs in Tulsa, Oklahoma, specialists in burn-testing of mattresses and foundations, Out of the Box Foundation showed it does not contribute to a failure of the mattress open-flame ignition standard. With over 40 burn tests conducted, Out of the Box Foundation meets the CPSC's "objectively reasonable criteria."

Testing Benefits:

- Out of the Box Foundation can be paired and sold with any FR 1633-compliant mattress.
- Saves cost and time of additional testing with each mattress.
- Allows Out of the Box Foundations to be marketed and sold more freely.

Flattens to ship.

Folds easily – even upholstered.

Opens flat for sturdy mattress foundation use.

Out of the Box Foundation Patented Design

Benefits for Retailers:

- Folding foundation reduces storage and transport space and costs.
- Passed all durability tests, including Cornell, Rollator, and Impact.
- Reinforced grid adds surface coverage and enhances stability.
- Heavy-duty 6-gauge border rod is welded to the grid for maximum edge firmness and no side-sway.
- Designed for better tailoring at the corners than standard foundations, adding to eye appeal of the entire unit.

Benefits for Consumers:

- UPS-shippable.
- Easy to move up or down stairs and around tight corners.
- No tools needed for assembly.
- Durable and noiseless.
- Optional screw-in leg feature removes need for standard bed frame, reducing assembly time and additional purchase costs.
- Headboard and footboard compatible.
