

TRUE-FLEX™ LOW PROFILE MODULAR BOXSPRING SYSTEM

TRUE-FLEX LOW PROFILE™... spring system is designed to lower overall bedding height while providing high quality mattress support. Patented Dyna-Lock™, interlocking grid design provides livelier support and firm uniform spring action. Increased spring wire support interlocked around a high strength grid provides superior surface support for premium mattress systems.

- 6 ga. spring steel border rod enhances edge support and resiliency.
- LOW PROFILE 9 ga. modules feature a unique spring design with eight working torsion bars that provide excellent spring function at a reduced height.
- Total height: 3".
- We supply and control the high quality of our wire product from our own wire mills.
- Coast to coast distribution.
- Representatives servicing your area.
